

The background features a detailed architectural drawing of a building facade, showing multiple windows and a central entrance. This drawing is overlaid on a collage of various colored geometric shapes, including rectangles and triangles in shades of orange, yellow, blue, and grey. A prominent teal-colored rectangular border frames the central text area.

Client Analysis

Starting in 1999, the founder and current Chief Medical Officer, Dr. Jim Varell, provided the nation's first use of Telepsychiatry to increase care access. Much has changed since 1999; Insight Telepsychiatry and Regroup Telehealth came together for one of the nation's largest clinical organizations, which is now known as Array Behavioral Care.

Concept

Ubiquitous

Present, Appearing, Or Found Everywhere

Through a variety of light and line, shadows are accentuated. Shadows are created by blocking light. The shadows form when an object is formed in the path of rays of light. . A ubiquitous effect will be created for the entire environment.

Concept Application

Concept Application

In each space, they are in a path of rays of light; you will see a variety of bright colors, light orange, and green. In these images being displayed, you see that. While having those colors, you also see a great amount of natural light displayed; many shadows are present in these spaces

Collaboration Room

Choice/Personalization

This room allows for users to have the ability to either sit or stand

Open Offices

Healthy Work Environment

Our workspaces can influence our overall physical health; therefore, the open offices are designed to enhance the staff work ethic

Conference Room

Noise

The wall of the conference room is made out of laminated glass; therefore, no one can hear or out, so this will reduce the distraction of another workers

Collaboration Room

Human Factors/Ergonomics

This space allows for interaction between the users

Overall Space

Sensory Change/ Variability

The Flooring changes allow for users to feel something different

RECEPTION

Wayfinding

A well-structured path is created for when people enter the Array office

Pantry Area

Natural Light

The amount of natural light coming in will improve the health and wellness of the workers

Patio

Access to Nature

This allows users to have the ability go outside

Quiet Rooms

COM/COL Material Requirement

More yardage may be required depending upon the upholstery pattern, repeat, directionality and pattern matching. Leather yield varies from 60-80% and may be affected by the quality of the COL including location and quantity of blemishes, size and shape of hide. The size of the sewing pattern and the number of units ordered may also impact yield. Always round-up to the next hide.

Alva Pendant LED

DESCRIPTION
The classic Edison-style squirrel cage lamp is reincarnated here as a modern socket and cord-style LED pendant light. The Alva pendant light from Tech Lighting features a powerful downward-firing LED that is smartly hidden within the "socket" then combined with a solid "bulb" of pure optic crystal. Intricately detailed "filaments" are laser-etched into the crystal for a visually intriguing light fixture. Includes 9 watt, 135 delivered lumen, 3000K, 2200K or Warm Color Dimming 3000K-2200K LED module. Dimmable with low-voltage electronic dimmer. Fixture provided with 12 feet of field-cuttable cloth cord.

INSTALLATION
This product can mount to either a 4" square electrical box with round plaster ring or an octagon electrical box.

WEIGHT
3.66lb / 1.66kg ±

OVERVIEW

FEATURES

upStage™ is a new design concept that elevates the lexicon of modern office furniture. upStage changes the way we create the spaces we work in.

Just as mid-century modern design transformed 20th century interiors, upStage brings a new topography to today's office.

Based on a simple platform or "stage," upStage frees users from the constraints of a benching frame or panel, allowing you to build along a horizontal or vertical plane to create layered worksurfaces and multi-story volumes. upStage is real furniture that can be mixed, stacked and moved around.

upStage offers a fresh, new-century look, feel and functionality – a new and more engaging office experience. upStage sets the stage for creativity, innovation and transformation.

OVERVIEW

FEATURES

POD (Privacy on Demand) is a family of products that are designed for occasional, short-duration privacy from the open plan. It supports technology and helps shape an environment where people want to work and where they feel comfortable and connected.

Consisting of Tek Booth and Tek Room, both solutions work together to create a diverse range of small-scale private environments. POD is backed by Teknion's impressive finish program to allow endless color palette combinations that suit any environmental aesthetic.

POD's freestanding design enables relocation and independence from building architecture, meeting company needs as they evolve.

INTERPRET

OVERVIEW

FEATURES

Interpret™ is a contemporary desking system that works for virtually any person, any task, anywhere in the world. Based on a core platform frame and concise set of reconfigurable components, Interpret allows you to make the office your own.

Adaptable and scalable, the innovative core structure can easily be installed, built upon, extended or fully reconfigured to adapt to new demands, changing demographics, advances in technology and evolving work patterns.

Interpret allows for the differences among workers and organizations – including their readiness to embrace the benching concept – by introducing new planning concepts and capabilities.

Interpret offers significant advantages for a workplace that must mirror regional norms and allow for personal expression; that speaks to varied needs across the office landscape and the cultural map. These needs encompass planning and specification, manufacture and delivery and finally, the direct user experience.

ZONES

- OVERVIEW
- FEATURES

ZONES COLLECTION

- OVERVIEW
- FEATURES

ZONES COLLECTION

Zones is a comprehensive series of furniture products that transforms the office, challenging convention and changing the way people experience work. It comprises seating, tables, screens, easels and accessories, as well as semi-private enclosures which can act either as an intimate collaborative setting or as a place of retreat when privacy is desired. Zones’ breadth of offering across multiple workplace categories with a consistent design language makes it unique.

Influenced and inspired by the untethered, modern worker who seeks movement, flexibility and convenience, Zones transitions the workplace from one that’s fixed and formal to a space that suits a variety of preferences and working habits. Components can be combined in limitless ways to create flexible, fluid work areas that exist “in between” less adaptable areas like private offices, conference rooms and high-density workstations.

Wood is used as a modern engineering material ensuring strength, flexibility, sustainability, beauty, craft and humanity. The combination of wood with other materials, and Zones’ harmonious, soft design, emphasize the domesticity and materiality of the collection.

Zones addresses the needs for focus, collaborative and workshop areas within the office environment. Designed by PearsonLloyd in conjunction with Teknion, the Zones collection won several 2016 Best of NeoCon awards, including Best of Competition and a Gold. Zones Benches won Gold and Zones Tables earned Silver in the Best of NeoCon competition.
